

Principal EPM Planning Consultant

Join our OneStream team as a Principal EPM Consultant. Not only will you be a part of an excellent team, you will play a pivotal role in helping the team achieve its goals while working in a collaborative and supportive environment.

You'll have the opportunity to engage with a diverse range of forward-thinking individuals who are experts in solving financial challenges, regularly undertaking marquee projects and consistently delivering exceptional results. Futuresense is a place where like-minded people come together to do amazing work, so join us to build a career within a team that is able to apply its skills anywhere in the world.

What you'll be working on

- Lead end-to-end implementations, rollouts, and support for OneStream EPM Planning, budgeting and forecasting.
- Collaborate with clients to gather business requirements, develop solutions, and execute the full project life cycle, including design, development, and delivery.
- Align business requirements with technology solutions to optimise performance, reporting, and financial data analysis.
- Develop technical specifications for recommended business processes, system design/configuration values/ reports, and system customisations
- Communicate timely status updates on assigned work and on-going activities
- Work collaboratively with the Practice Lead and other Consultants for any process improvements and solutions.

Key competencies required

- Minimum 5-8 years of experience working with EPM systems
- Degree or higher in computer science, business or engineering
- Proven expertise in managing and implementing EPM - Budgeting, Planning, and forecasting.
- Comprehensive knowledge of finance modules such as Accounts Payable (AP), Accounts Receivable (AR), General Ledger (GL), Fixed Assets (FA), iExpense, and Cash Management.
- Strong financial process knowledge with a background in finance transformation and systems optimisation.
- Must show strong programming skillset on MS VB and or VB.Net technologies.
- Candidate will be an individual contributor with the ability to interact with a global team of functional leaders, business partners, technical experts and articulate how to best integrate EPM technologies to deliver superior business impact
- In depth experience in financial planning, budgeting, forecasting, reporting and analysis
- Experience with EPM implementations including scoping requirements, designing, building, testing, training, and documentation

What we are looking for:

- Caring people who put others first
- Self-starters who embody the Futuresense spirit
- Authentic individuals with a diverse point of view
- Lifelong learners with a drive to excel
- Resilient people who rise to the occasion

Whats in it for you

- Structured career development – our team of industry experts are here to support and work with you to explore your potential and your goals
- Flexibility – we're outcomes-based, so you will be splitting your time between the office, clients, and home
- Competitive remuneration
- Additional benefits – including medical aid contributions, pension

We want you

Become a black belt EPM consultant!

A niche business consultancy, Futuresense offers tailored EPM solutions across Africa and Europe focussing on Oracle and OneStream. We empower finance teams with a trusted system and accurate numbers that provide critical information and deep insights into their business, allowing them to proactively meet the organisation's financial objectives. Made up of a diverse group of people, our team can deliver on any project, finding solutions while remaining excited about the work they do. Simply put, our "black belt" consultants solve problems that clients value.

"I love working for Futuresense as there is alignment between personal and company values. The team makes me feel appreciated and acknowledged and this makes it easy not just to love my job but to love the people I work with." Candace du Toit, EPM Business Consultant.
